ProjectDox

ePlan Integration for Infor

Fully integrated with Infor Public Sector, ProjectDox delivers efficiency for project reviews and approvals, thereby accelerating community jobs and revenues —all while assuring building safety compliance. No more lobby waiting. Permit applicants interact online with full accountability in their role for any delays.

ProjectDox® is the market's leading Electronic Plan Review (ePlan) solution that digitally transforms the way localities review and approve projects and changes.

Support your goals and do more with existing staff

- Greater Community Safety: transparency and efficiency

- Accelerates Economic Development: get things built faster

- Complete Process Transparency: real-time project status

- Align Departments and Break Silos: better collaboration & accountability

- Efficient Use of Resources: do more with less

- Clean and Sustainable Environment: paperless electronic data access

Key Integration Features

ProjectDox is highly configurable workflows, interlaced with content management, built for the process complexities of reviewing building, planning and engineering designs.

- Proven departmental workflows, including dynamic master/sub reviews

- Markup version management

- Maintains legal integrity of applicant documents

- Manages correction submissions with advanced revision compare

- Task assignment and notifications, with accountability/reporting

- Electronic batch stamping

- Manage resubmissions and deferrals

With numerous integrations implemented across North America, Infor/Avolve customers love the efficiency!

Field Inspectors & First Response

Avolve's suite of ePlan Life Cycle products bring efficiency and ease to submitting, reviewing, approving, storing and accessing building plans and data within your jurisdiction.

Over 250+ cities and counties across five countries use an Avolve electronic plan review solution. Avolve's ProjectDox has over 1,000 deployed plan review processes, with over 2 million plan reviews performed, on about 100 million plan set files.

"I have used all local jurisdictions' digital submittal processes and I have to say, this was number 1 in ease of use, organization, and layout."

"We reduced review service from 7 to 3 days immediately after implementing ProjectDox ePlan technology."
